

I. **Corrections to the Drawings**

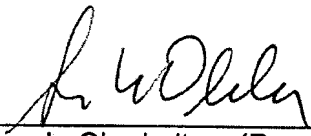

The previously submitted drawings were objected to due to the fact that they were not properly identified in the top margin as "Replacement Sheet". Three sheets of new drawings that properly indicate in the top margin "Replacement Sheet" are being submitted herewith

II. Remarks

In view of the above and previously submitted amendments and remarks, it is respectfully submitted that the newly submitted drawings are now in compliance with 37 CFR 1.121(d).

Respectfully submitted,
